## Happy New Year

You want a happy New Year. You can have it. How? Begin the year right and you will go on right. By trading at our store you will begin economically, and economy will help you save money and be happy. Money will buy happiness, but the fellow that saves has always a better chance of happiness than those that don't. By saving money you are laying up sunshine against the dark days. We try to create a smile of satisfaction on the face of every customer who enters our store by giving them bargains they can't get elsewhere. Try for yourself the sunshine and the smiles. Yours for a prosperous and happy New Year.

## THE FAILURES FOR THE YEAR.

Fewer Than Any Year Since 1883

Consumption of Cotton Larger Than Ever—Prosperity Evident

New York, Dec. 29—Don's Weekly

of Trade says:

No correct report of failures in 1898 can be made until the year has closed. A collapse of speculation in copper stocks has swelled the aggregate at Boston alone over \$18,000,000 within a few days, and might yet add to the record. The failures thus far reported are few in number than in any year since 1883, and smaller amount of failures than in any year since 1881. The aggregate of defuncted liabilities is \$12,16,000.

The average of liabilities per failure is less than \$9,500, the same less in any year of twenty-five years. The week has been exciting only at Boston, where failures growing out of speculation and the efforts to re-establish banks and firms suspended have not given the week a holiday character.

Very important firms have failed, save those which were individually connected with concerns involved by speculation. The failures of the Produce Exchange Trust Company and a brokerage firm here were likewise due to the sudden fall in industrial and street railway stocks. These speculative troubles come because the volume of legitimate business and the unprecedeted profits, interest and dividends, make it no longer possible to carry some stocks on borrowed money. Prosperity itself placed a check on speculative ventures. The railroad stocks have advanced 33 1/2 per cent. for the week and industrials 35 1/2 per cent.

Railroad earnings gained in December.

Address all communications to THE EVENING TELEGRAM, Greensboro, N. C.

SATURDAY, DEC. 30, 1899.

TO OUR PATRONS.

On this, the closing business day of the present year, the Telegram desires to thank the friends and patrons who have stood by it during the year. We are thankful for business favors and for kind words. We can't complain at the patronage extended us; but want to increase it in 1900.

We hope to make the paper better than ever. We will say it shall be better than ever. People who have never before read the paper regularly are subscribing and we will reach more people than ever during 1900. Again, thanking you most sincerely for your patronage, both advertisements, subscriptions and job work and soliciting a continuance of same, we wish you a very prosperous and happy New Year.

THE CLOSING YEAR.

Ere the Telegram greets you again Father Time will have made another whack at the rolling cycles and the year 1899 will be numbered with the things that have been. Another milestone along life's journey has been reached and as we rest here a brief moment to take a fresh draught for the renewal of the journey we take a glance backward at the receding year.

It is with some degree of sadness that we part with 1899. It has been an eventful year. Of the truth of that it is not necessary to adduce proof here. Our readers are perfectly familiar with what has been done. In spite of wars and rumors of wars great prosperity has come to the country and the people have been made happy in spite of their sorrows by the unprecedented era of prosperity which has visited the country. Many distinguished men have been ushered into the mystic beyond, but you have read their biographies and it would be tiresome to enumerate here.

Nearly every civilized nation on earth approved the proposition to do away with wars and sent representatives to The Hague peace conference, and those same nations were at the same time, almost without exception, spending enormous sums in building greater navies and in better equipment for their standing armies. This is one of the remarkable spectacles which have been presented during 1899.

What will the New Year bring? No man can tell. Many predictions have been made and some of them will doubtless prove true. It is enough for us to remember the past, improve the present and deal with the future as it rolls past us. That we may expect stormy places along its path goes without saying. Past experiences will help us in our further journey if rightly considered and appropriated.

A fond farewell to 1899; and a glad welcome to 1900!

The Charlotte Observer, whose head is quite level, says the democratic party in side-tracking the tariff question has discarded its winning plank. It has been a winner in the past and is strong now. Low tariff talk has been popular in the south. We believe, however, that there will be a reverse action, and in few years the north will clamor for free trade and the south will want a protective tariff. Watch it.

Dun and Bradstreet report the year just closing one of the most prosperous in the history of the country. See their reports published elsewhere in this paper. It has been a year of enormous expansion in industrial affairs, and nothing like it has hardly ever been seen before. Still greater things might be expected during 1900 but for the disturbance of a national election.

A Great Improvement.

The Greensboro Telegram announces that in spite of lack of co-operation and studied purpose against the dispensary it is proving a success and some who have noted the improvement admit their mistake in opposing it. Among them is a legislator who plead and voted against it. The Telegram has the satisfaction of realizing its expectations when it threw itself into the push for the dispensary. As far as we have heard the dispensaries in our state are a great improvement over the open bar-room.—Concord Standard.

DOINGS IN WASHINGTON.  
The Gridiron Club to Visit Charleston, South Carolina.

Special to the Telegram.

Washington, Dec. 30.—The visit of the Gridiron Club, the famous newspaper organization, to Charleston, South Carolina, will be a notable occasion. As a rule the club does not accept invitations of this character, and it is believed that the banquet in the southern city will be the first of the kind witnessed by any city outside of Washington, the headquarters of the club. The membership of the club is composed of some of the brightest and best known of the newspaper fraternity in the United States. The club is an exclusive organization, and is about as hard to gain admission into its membership as it is to become a member of the Royal Academy of London.

The preparations for the trip south are all completed. The club leaves Washington Sunday afternoon at four o'clock, over the Southern Railway, the company having tendered a special train of handsome sleepers and private cars for the occasion. The route to Charleston will carry the club through the states of Virginia and North Carolina. Dinner will be served at the railway station at Charlottesville, as a dining car will not be attached to the train. It has been said that the club might go farther south, as far south as Jacksonville, Florida, but this is an error. The club will leave Charleston Tuesday for Washington, so as to be back at the capital in time for the opening of congress on Wednesday at noon.

Several well known senators and representatives, including Senator Tillman, of South Carolina, will accompany the club to Charleston. Representative Elliott, who represents the Charleston congressional district in the house of representatives will meet the club in that city, as he is now at his home. Representative Allen, of Mississippi, will also be in Charleston on the occasion of the club's visit.

Representative Stokes's success in securing a trial by the postoffice department of his plan prepared for the delivery of mail along star routes will be watched with interest. The new system goes into effect on July 1st, 1900, all over the State of South Carolina. At the postoffice department it is reported that if the system is found to work well in that state, it will probably, before the close of the next year, be put in operation in other southern states. Representative Stokes has studied the system thoroughly, and is satisfied that the plan will work well, and will be of much benefit to the rural residents of his state, and at the same time will increase the revenue of the postoffice department.

The southern senators, including Daniel and Martin, of Virginia, Butler, of North Carolina, and others, are in favor, it is reported, of the establishment of an armor plate factory by the government for the manufacture of armor plate for the navy.

Congressmen are returning to the city for the session of congress which opens on Wednesday. Many who went home for the Christmas holiday, returned to Washington and will spend new years, and the time intervening before the assembling of congress.

Among those who have returned are Senator Tillman. He will, however, leave Sunday evening for Charleston with the gridiron club. By the time congress meets there will be a full membership present in both houses. The southern members, or at least most of them will be on hand.

Site of postoffice at Brick Church, Guilford county, has been moved one mile south. William H. Levens has been commissioned postmaster.

Post office has been established at New River, Ashe county. Martha J. Vaughn has been commissioned postmaster.

Fred L. Ward has been commissioned postmaster at Edenton, North Carolina.

North Carolina people in Washington are: E. B. Jones and wife, of Winston; J. H. Pratt, Chapel Hill; J. F. Hayes, Sapphire, and R. W. Moore, Charlotte.

Glorious News.

Comes from Dr. D. B. Cargile, of Winston, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It is the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up strength. Only 50 cents. Sold by C. E. Holton, druggist. Guaranteed.

### A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will every one who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c and \$1. Trial bottles free at C. E. Holton's drug store; every bottle guaranteed.

Trot out your good resolutions!

"One Minute Cough Cure is the best remedy I ever used for coughs and colds. It is unequalled for whooping cough. Children all like it," writes H. N. Williams, Gentryville, Ind. "Never fails. It is the only harmless remedy that gives immediate results. Cures coughs, colds, hoarseness, croup, pneumonia, bronchitis and all throat and lung troubles. Its early use prevents consumption. Howard Gardner.

### A SURE CURE FOR CROUP.

Twenty-five Years' Constant Use Without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even as the croupy cough appears it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effective. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by C. E. Holton, druggist.

ings, leaders and topics will be given  
later.

THE BAND CONCERT.

Cold Weather Did Not keep the  
Crowd Away.

The court house was full of Greens-  
boro's music loving people last night,  
a large per cent being ladies, to greet  
the City Gate Band in the concert.  
Every number on the program of  
sixteen pieces was heartily cheered.

The audience was highly pleased  
with the finished manner in which the  
music was rendered. The program  
consisted of high-class, difficult music,  
not amateur hand pieces as some per-  
haps thought. It would be, and the  
boys played like "professionals,"  
showing excellent training and good  
talent. Their appearance last night  
was a decided success, and was duly  
appreciated.

No Charge.

Spectators of prize fighting pay  
enormous sums for the privilege of  
witnessing what they term an exposi-  
tion of the money art without charge.  
You can see at Rankin, Chisholm,  
Stroud & Rees' clothing store an ex-  
posure of values. They claim to be  
value and say that value has put old  
cheap to sleep. Read their ad on  
first page for interesting particulars.

Assaulted his Grandfather.

Will Shelton was arrested last night  
in the eastern part of the city by Con-  
stable Scotts on a charge of having as-  
saulted his grandfather. Officer  
Pearce has a warrant for the same  
man for larceny. It is reported also  
that Shelton is an escaped convict  
from Rowan county. Monkeying with  
his grandfather is liable to get him  
into triple trouble.

**A LINCOLN INCIDENT.**

You Will Find They Are a Different  
Breed of Pups."

The sayings of Abraham Lincoln are  
more often quoted than those of any  
other occupant of the presidential  
chair. They are many of them models  
of terseness, depth and breadth--too  
broad occasionally for repetition in  
polite society. An army officer tried  
for some offense by court martial had  
been found guilty and his dishonorable  
discharge recommended.

Secretary of War Stanton was a  
friend of the party and interceded in  
behalf with the president, bespeaking  
at least a mitigation of the penalty.  
On looking into the matter, however,  
Mr. Lincoln found the record of the  
officer to have been very shady, so he  
confirmed the verdict of the court.

Not long after Mr. Lincoln was called  
upon to pass on a similar finding  
against an officer who had committed  
an offense almost parallel with the other;

but after going into the merits of  
the case thoroughly, the president re-  
turned the documents with disapproval of  
the punishment urging the court  
martial "for good and sufficient rea-  
sons which he would make known per-  
sonally, if desired, to any member of  
the court," to reconsider the case and  
recommend the lightest punishment  
possible under the circumstances.

The papers passed through Stanton's  
hands who repaid it to the president and  
indignantly demanded to know why there was so much leniency  
to be shown in this case, while even his personal supplication had  
been disregarded in the other.

Producing two bundles Mr. Lincoln  
said: "Take these papers, Stanton,  
look them over carefully, and you will  
find that the two men are a different  
breed of pups."

On reading the first set Mr. Stanton  
realized that his friend had got his  
jaws deere, while the second showed  
him that but for this one offense the  
record of the other had been un-  
dermined, making him the proper object  
for the exercise of executive clemency.

Shoes of similar appearance may  
also belong to a different breed of  
pups. There are for instance other  
good shoes than those sold by Shrier.  
But Shrier's shoes are made from the  
highest grades of all leathers and  
trimmings of the very best to be pro-  
cured. They are artistically devised  
in all details and are put together by  
highly skilled workmen. Similar look-  
ing shoe may be good and incident-  
ally very good, but is it in Shrier's  
shoes that we strike the highest stand-  
ard of excellence.
